Email Kathy Hackemer ([hhackemer@aol.com](mailto:hhackemer@aol.com)) for additional information.

Hackemer Lofts is an All-American loft with a consistent flying record over a span of 50 years, well-known for developing winning families of birds. Honored as the AU Breeder Elite in 2015, Horst Hackemer's goal was to breed pigeons with stamina to excel with speed, determination and one-day racing ability, as evidenced in the results below.

The carefully curated birds offered in this auction come from a family built around three prepotent cocks. **LUKE** and **LOU** are full brothers and direct grandsons of the Figo cock, the famous First National Winner from Bourges. **OSCAR**, the third cock, is an outcross with qualities Horst knew would complement his Figo line. Each of these cocks has bred numerous flyers who scored in the top 5%.
